

Petronia Consulting Limited

Preparedness Initiative (OSPRI)

Our Role

To manage and coordinate industry's Oil Spill Preparedness Regional Initiative (OSPRI) for the Caspian Sea, Black Sea and Central Eurasia. The alignment of the twelve member companies takes place within the umbrella of IPIECA. The role involves liaison with national regional governmental interests alongside coordination with international organizations, such as IMO, ITOFF, IOPC Funds and *Oil Spill Response*.

Peter has managed OSPRI since its inception in 2003

Benefits to the Client

The availability of very experienced manager, fully conversant with the IPIECA/IMO Global Initiative and able to represent industry and the highest levels with technical credibility. Fulfilling the role for a number of years has enabled OSPRI to present a consistent face and generate long-term relationships.

Black Sea table-top exercise

Key Outcomes

There has been substantial improvement in the national regional oil spill preparedness mechanisms. Capacity has been built through numerous meetings and workshops, alongside targeted support to national planning efforts. Industry is moving towards its aims of working in cooperation with government to achieve integrated, prove, credible and sustainable national and regional oil spill preparedness.
